1500

Scatter plot showing the relationship between the number of years since the 1980 census (X-axis) and the percentage of the population aged 65 and over (Y-axis). The X-axis ranges from 0 to 10, and the Y-axis ranges from 0 to 10. Data points are plotted for various years, with a general upward trend. A label '(4000)' is present near the bottom right, and a '7' is near the top right.
